#### **Guidelines for Writing Internship Report**

This document has been designed to guide students of the Higher Technical Teacher Training Collage (HTTTC) kumba on writing their internship reports. All interns are required to strictly respect these guidelines and format prescribed for their internship reports.

#### **Overview**

The internship report is a reflection of student's internship and its relationship to his/her studies at HTTTC; namely, how has the theoretical knowledge the student has acquired in his/her courses prepared him/her for this professional experience?

The internship final report should be a formal document written in prose that summarizes the internship experience. First-person (e.g., I observed a high level of collaboration...) style of writing is preferred over the third-person (A high level of collaboration was observed...) because the first-person voice is generally more succinct, has gained acceptance in scientific writing, and is generally more interesting for the reader.

Internship Reports should be the work of the student and not plagiarized (consult the policy and sanctions of the University of Buea on plagiarism).

*Questions or comments concerning information contained in this Guidelines for Writing Internship Report should be directed to the Division of practicals of the Higher Technical Teachers Training College kumba of the University of Buea.*
